

Dear Madam/ Sir,

We represent M/S. Fine Treat, One of the key established services and trading companies in the Kingdom Of Bahrain. Our company caters a variety of products and services across a spectrum of building services and mechanical requirements. Based on years of success in water treatment products and services at an industrial and commercial level we have developed our group of companies to service an ever increasing Client base.

As an established Services and Trading Company in the Kingdom of Bahrain we look forward to the start of a new decade with a revised profile, increased portfolio and new objectives, building on our successes over the preceding years.

*“Our objective is to offer a new, flexible and efficient approach to the Gulf Region’s Construction and Services sector. By complimenting World class products with state of the art technology and a highly experienced and diverse Management Team. We are well positioned and capable of servicing ever increasing customer requirements.”*

#### **Company Overview.**

With many years of successful growth in the market, Fine Treat are now embarking on a planned development through collaboration with internationally recognized organizations and brands and a highly skilled and experienced Management team. The intention is to bring quality products and a new level of service to the Middle East market.

Aimed at specialist sectors of the market to bring amongst other things, Acoustic solutions, waste management and recycling of materials and a range of high quality HVAC and building services materials currently not catered for in the region.

By developing a hand-picked select team of professionals, coupled with a blue chip range of brands and products, the Company already has a reputation of quality, service and as a solution provider.

For what by many is considered a difficult market, trust and confidence are two key ingredients that our Client’s are looking for. Our professional approach has resulted in attracting some of the best brands in the World, conversely this gives us access to market leaders and in turn their resources and support.

Our success has determined that our Clients required more than just a products supplier and more of a solution provider. We have therefore developed our Contracting side providing Design and Build solutions on a variety of prestigious projects.

As we look to the future we look to further develop our relationship with our key partners as they develop their products and services, bringing new ideas and innovation to the region.

Flat No: 7, Building No: 98, Road No: 405, Block No: 104, Hidd, Kingdom of Bahrain  
Tel. No: +973-13625550, Fax. No: +973-13625551, E-mail ID: [aamirk.water@gmail.com](mailto:aamirk.water@gmail.com)

We have also spent time developing relationships with selected OEM Manufacturers and Sub Contractors adding greater scope and capacity to our operation.

The Company has two distinct disciplines comprising two Commercial registration certificates (Copies attached). We utilize “Fine Treat Trading W.L.L.” CR for supply of a comprehensive range of products and spares, and “Fine Treat Services SPC” for providing technical services. Covering a multitude of products and services we have such as water analysis, R.O. maintenance, Waste Water Treatment, Fire fighting systems maintenance, Water balancing, air balancing, etc.

#### **Fine Treat Trading.**

Fine Treat Trading has developed an enviable reputation for its supply of Water Treatment Chemicals, becoming the ‘go to’ company in Bahrain for such products. Providing a comprehensive range of chemicals and expert technical support the company has a broad client base. Covering a multitude of products and services we have items such as water analysis, R.O. maintenance, Waste Water Treatment, Fire fighting systems maintenance, Water balancing, air balancing, etc.

**Lists of completed projects for chilled water flushing & Chemical dosing system respectively are attached herewith for your reference.**

We intend to cater refineries, petrochemical and chemical companies. The company aims to be recognized as one of the leading supplier of superior quality water treatment solutions comprising equipments, boiler, cooling tower, chillers and potable water products across multiple industry segments & government organizations.

The company’s mission is to provide water treatment chemicals and services with a portfolio of solutions designed for the customer base. The consultative approach will enable it to identify the right treatment and services to help achieve maximum results.

**The company intends to be known for more than just the expert water treatment chemicals. We currently provide chemicals to treat water for cooling tower, chiller, and boiler systems. Apart from this we supply, install, design, commission and maintain(spares, consumables, Antiscalant & CIP) R.O. Plants. (current job references may be provided upon request and visits could also be arranged at the premises where we have installed and are maintaining our RO systems).**

The company will provide all the requirements to address a specific need (product availability & technical support). We will provide a package for every water treatment requirement and process chemicals suitable for every client. We intend to provide the following chemicals and services:-

Flat No: 7, Building No: 98, Road No: 405, Block No: 104, Hidd, Kingdom of Bahrain  
Tel. No: +973-13625550, Fax. No: +973-13625551, E-mail ID: [aamirk.water@gmail.com](mailto:aamirk.water@gmail.com)

**A. Chilled Water Treatment (Closed Loop System)**

Cleaning chemicals  
Passivators  
Flushing aids  
Inhibitors and dispersants  
Micro biocides

**B. Cooling Water Treatment (Open Type System)**

Corrosion and scale inhibitors  
Scale dispersants  
Alternating Biocides

**C. Boiler Water Treatment**

Corrosion and scale inhibitor  
Alkalinity Builder/ Neutralizer  
Oxygen Scavenger  
PH Stabilizer  
Softener Salt.

**RO Antisclant**

**CIP Chemical For RO**

**Resins**

**D. Oil field chemicals, bentonite ,bauxite, Fuel additives, fireside cleaning chemicals and specialty sugar chemicals.**

In addition to the above mentioned chemicals, we intend to provide the following equipment and packages

**E. Chemical Dosing Equipment**

Controllers  
Chemical Dosing Equipment  
Chemical Dosing Tanks  
Accessories

**F. Filtrations**

Multimedia Filter

Activated Carbon Filter  
Sand Filters  
R.O. Systems  
U.V. Sterilizers  
Ion exchange resins  
Pharmaceutical plant

**G. Sweet water & waste water plants (RO plants, softener plants, DM plants, Effluent Treatment plants, Sewage Treatment plants) .Equipments Installation, Commissioning and Maintenance**

**H. HVAC Products.**

We are pleased to introduce the following which whilst appearing quite extensive is not exclusive:

**I. Acoustic Products:**

*Sound Attenuators*  
*Acoustic Louvers*  
*Absorption Panels*  
*Floating Floors*  
*Inertia Bases*  
*Acoustic Barriers*

**J. Air Conditioning Equipment**

*Chillers*  
*Air Handling Units*  
*Fan Coil Units*  
*VAV's*  
*CAV's*  
*Control Valves and Actuators*

**K. Ductwork.**

*SMACNA*  
*HVCA*  
*Fire Rated Ductwork*

Flat No: 7, Building No: 98, Road No: 405, Block No: 104, Hidd, Kingdom of Bahrain  
Tel. No: +973-13625550, Fax. No: +973-13625551, E-mail ID: [aamirk.water@gmail.com](mailto:aamirk.water@gmail.com)

*METU Form Specialist Ductwork  
Stainless Steel Ductwork  
Dust and Fume Systems  
Blast and Fire Barriers*

**L. Louvers.**

*Weather Louvers  
Penthouse Louvers  
Acoustic Louvers  
Sand Trap Louvers*

**M. Grilles and Diffusers**

*4 Way diffusers  
Linear Slot Diffusers  
Double Deflection  
Single Deflection  
Swirl Diffusers  
Drum Louvers  
Egg Crate Grille  
Jet Nozzles*

**N. Dampers**

*Fire Dampers  
Combination Fire Smoke Dampers  
Non Return Dampers  
Volume Control Dampers  
Balancing Dampers*

**O. Ventilation Products.**

*Fans  
Heater Batteries  
Filters  
Access / Inspection Doors*

**P. Fine Treat Services.**

Due to the success from various projects over the years the Company has expanded its portfolio of operations extensively. With a highly experienced team of engineers we have been involved in a variety of projects, working closely with our Clients on the following:

- *Acoustic Consulting and Design\*
- *Dross Recovery*
- *Setting up manufacturing facilities as turnkey operations*
